

Kali School History Day in Alaska

Kali 6-8th graders participated in a study of history known as History Day in Alaska, Alaska's non-profit affiliate of National History Day. Local contests ranged from small classroom contests to large school district contests. The Kali 6th, 7th and 8 grade classes participated, with the winning presentation put forth by the 6th graders, with their presentation of the life and times of George Washington. Please enjoy the photos highlighting their many hours of work and research!
