

Getting started with VIVA

Instructions for using the Guest User account.

Click on the door.

Click here to go to the VIVA game:

People using their own accounts would have no scores yet and would only be allowed to play the easier units. Because anyone and everyone can use the Guest User account there will be scores in boxes for a lot of the levels and a lot of the games will be available for you to play. This means that you'll have to pace yourself along the levels and within the units.

I recommend you start with ASLA I and master each level in that unit before moving onto the next unit.

First Second Third Fourth etc....

The screenshot shows a language learning interface with a grid of units and dialect selection icons. At the top, there are 'Gain' and 'Usage' indicators, each with five colored boxes (blue, yellow, green, red, purple) containing the number '0'. Below these are five red arrows pointing to the first five columns of the grid, labeled 'First', 'Second', 'Third', 'Fourth', and 'etc....'. On the left side, there are five circular icons representing different dialects: a walrus (Ulguniq, Inali), a caribou (Nunamiu), a walrus (Tikiqaaq), a bird (Atqasuk, Nuiqsat, Qaaktuuvik, Utqia), and another bird. A red arrow points to the bird icon at the bottom. The grid contains various units such as 'ASLA 1', 'ASLA 2 LI', 'ASLA 2 LII', 'Body Parts LI', 'Body Parts LII', 'Animal Names', 'Body Parts ALL', 'Numbers 1-20', 'Tally Marks 0-31', 'ASLA 4A', 'ASLA 1 & 4A', 'ASLA 4B', 'ASLA 2 & 4B', 'ASLA 3 LI', 'ASLA 3 LII', 'ASLA 4C', 'ASLA 3 & 4C', 'ASLA 5A', 'ASLA 5B', and 'ASLA 6A Sing.'. Each unit card displays scores in colored boxes and a star icon.

Click on one of the icons to select the dialect you want to learn before clicking on the unit you are going to learn.

This is what you should see when the game you select opens.

The game will automatically load to the highest level of play available based on previous plays. You will see other user's scores in the boxes for levels of play. It is a good idea to go to the pre-play level which is VIVA I. You can do that by clicking on the VIVA I icon.
